Dr. MacKenzie is a planetary scientist interested processes that create and rework the surfaces of icy satellites. She has investigated sediments on Titan since 2012—working with data from Cassini's Visual and Infrared Mapping Spectrometer, RADAR, and Imaging Science Subsystem—with the aim of understanding how these sediments play a role in habitability and prebiotic chemistry. She serves as the Assistant Project Scientist on the Dragonfly mission concept, assisting in the defining and implementation of the science goals and objectives as a science theme lead. She recently led a mission concept study of large-class missions to Saturn's moon Enceladus specifically to search for signs of life. The results of this study were delivered to the 2023-2032 Planetary Science and Astrobiology Decadal Survey.

EDUCATION

Ph.D. Physics University of Idaho	December 2017
M.Sc. Physics University of Idaho	August 2015
B.S. Physics University of Louisville	May 2012

PROFESSIONAL & MISSION EXPERIENCE

Senior Professional Staff II, Johns Hopkins University Applied Physics Lab (JHU APL)	1/2022-present
Senior Professional Staff I, JHU APL	1/2020-12/2021
Co-I and Science Theme Lead, Dragonfly NF4 Mission Concept	3/2016-present
Principal Investigator, Enceladus PMCS	10/2019-07/2020
Post-doctoral Fellow, JHU APL	1/2018-12/2019
Principal Investigator, JPL Planetary Science Summer School	5/2015- 8/2015

FELLOWSHIPS AND GRANTS

Scialog Fellow	2020-2023
Predecadal Mission Concept Studies Program	2019-2020
Habitable Worlds Program	2019-2020
Cassini Data Analysis Program	2019-2022
NASA Earth and Space Science Fellowship	2014-2017
Leonard Halland Centennial Scholarship	2015-2016
Glen E. and Jean K. Nielsen Science Scholarship	2014-2015
Idaho Space Grant Consortium Research Fellowship	2013
Barry M. Goldwater Scholarship	2011

FIRST AUTHOR CONFERENCE PRESENTATIONS

*Oral Presentations (*Invited)*

HONORS AND AWARDS

JHU APL Oscar Peer Recognition Award	September 2019
Walter G. Berl Award for Outstanding Paper in JHU APL Technical Digest	April 2018
JHU APL Bumblebee Award for Championing Revolutionary Capabilities	April 2018
University of Idaho Dean's Graduate	May 2017
Division for Planetary Sciences Hartmann Student Travel Award	October 2017
University of Idaho 3 Minute Thesis Competition 1st Place	April 2016
University of Idaho College of Science Innovation Showcase 3rd Place	April 2016
University of Idaho College of Science Video Competition 1st Place	April 2016
NSF Graduate Research Fellowship Program Honorable Mention	2012
University of Louisville College of Arts and Sciences Woodcock Medalist	2012
University of Louisville Honors Scholar Suma Cum Laude	2012
University of Louisville Dept. Physics and Astronomy Graduating Senior	2012
William Marshal Bullitt Award in Astronomy	2012
Barry M. Goldwater Scholarship	2011

COMMUNITY EXPERIENCE

Member of Network for Life Detection Steering Committee	2021-present
Guest Editor of Ocean Worlds Focus Issue, PSJ	2020-present
Member of Network for Ocean Worlds Steering Committee	2019-present
Conference organizer	
Titan Through Time SOC	2020
DPS SOC	2018, 2020
Titan Surface Working Group Meeting	2015
Member of Roadmap to Ocean Worlds Committee	2016
Reviewer for *Icarus*	since 2017
Reviewer for NASA mission and grant proposals as	
Executive Secretary, External Reviewer	since 2015

MISSION & MISSION DEVELOPMENT EXPERIENCE

Enceladus Orbilander Predecadal Mission Concept Study	May 2019-August 2020

Principal Investigator

Dragonfly New Frontiers 4 Proposal since March 2016
Co-Investigator: co-wrote the science section of the proposal, created maps for landing site selection, geomorphology science working group lead
Assistant Project Scientist (since 2021)

Oceanus New Frontiers 4 Proposal May - April 2016
Student collaborator: assisted in the design and writing of evaporite investigation, science section of the proposal, and STM development

Jet Propulsion Laboratory Planetary Science Summer School May - August 2015
Principal Investigator: led the design, planning, and execution of a mock mission; presented poster at several conferences; wrote manuscript

FIELD EXPERIENCE

Salton Sand Sea, California USA Sept 2021
Led expedition to collect sand for biological, chemical, and physical analyses; GPR, EC, and temperatures measurements taken
Veevers Crater, Western Australia July 2016
Assisted in OSL and photographic data collection
United Arab Emirates April 2014
Assisted in OSL, GPR, and photographic data collection

SHORT COURSES

Sensors & Software GPR short course at GSA November 2018
NASA Astrobiology Institute Astrobiology Summer School June 2018
JPL Planetary Science Summer School June – August 2015

TEACHING/MENTORING EXPERIENCE

Dragonfly Student & Early Career Investigator Program Mentor May 2020 - present
Graduate Teaching Assistant August - December 2015
University of Idaho Department of Physics
Undergraduate Teaching Assistant August - December 2011
University of Louisville Department of Physics and Astronomy
